

DATA LOGGER

SPECIFICATION

Model : DCF 0508V

Number of inputs : 8 channels

Recording : onto compact flash memory 128 MB(expandable)

Recording event numbers: depended upon compact flash
memory capacity

Display : LCD for real time indication ,configuration and presetting

Measuring Input: analog 0-5Vdc or 4-20mA(option)

Resolution : 1.22 mVdc (12 bits ADC)

Input resistance : $4.15 \pm 0.15 \text{ M}\Omega$

Measurement error : 0.2% (0.5 % max)

Scaling factor : defined by user

Units of measurement: defined by user

Selectable Units on menu : °C , °F ; mm , Cm, Km ; m/s , Km/hr ; gm , Kg , Tn ; Bar ,
PSI , Pa ; % , ppm , mg/L ; mV , V , Vac , ma , A , Aac , Hz , W;
sec , min , hr ; ° (angle) , g , ms^{-2}

Logging Rate (Sample Interval) : 2 second....60 minutes; 1....24 hrs (programmable)

Software : display of recorded data on Microsoft Excel

Power supply : 220Vac/50 Hz 0.4 watt or 12Vdc/25mA ,
7.2 V rechargeable back-up battery

Dimension : 19 x 21.7 x 6 cm

Weight: 1.2 kg

2-Year warranty
